About Kitchen Designs

For more than 35 years, Kitchen Designs by Ken Kelly's creative, dedicated team has become known for exceptional design and innovation. We pride ourselves on our unsurpassed reputation for client satisfaction providing precise attention to detail, the best selection of the highest quality products, uncompromising business ethics, and a commitment to remarkable design. Our staff includes certified kitchen and bath designers and certified remodelers who are experts in kitchen design and remodeling. Our diverse team offers vast experience in creating rooms that work for your lifestyle, and we have the best tools to work with — the highest quality manufacturers, expert and talented field teams and installers who do quality work, and a very strong, organized administration that knows how to execute a project and deliver the best possible finished result. As a full service design studio, Kitchen Designs offers total turn-key services, coordinating the entire project from design and cabinetry installation to fixtures, countertops, flooring, windows, and lighting. We also offer a-la-carte services such as design only, cabinetry only, and a to-the-trade program for commercial and residential projects. Our team is dedicated on the follow-through and will take care of every detail of your renovation. We are proud to be named "Top 50 US Innovators in Design" in Kitchen and Bath Design News.
